

### Management of Portfolios

MoP® is comprised of principles, techniques and practices that will assist your organisation in the successful adoption of portfolio management.

MoP® shows you how to take an organisational view of all your projects, programmes, and business-as-usual activities. Application of this guidance enables an organisation to have a razor sharp focus on the initiatives that add the most value and optimise benefit returns.

MoP® helps organisations have a balance of initiatives which achieve benefits and value across a wide range of organizational objectives. Overall delivery is improved because scarce resources are targeted where needed.
